B.Tech. I Year II Sem.

L T/P/D C  
3 0/0/0 3

### INTRODUCTION:

In view of the growing importance of English as a tool for global communication and the consequent emphasis on training students to acquire language skills, the syllabus of English has been designed to develop linguistic and communicative competencies of Engineering students.

In English classes, the focus should be on the skills development in the areas of vocabulary, grammar, reading and writing. For this, the teachers should use the prescribed text for detailed study. The students should be encouraged to read the texts/poems silently leading to reading comprehension. Reading comprehension passages are given for practice in the class. The time should be utilized for working out the exercises given after each excerpt, and also for supplementing the exercises with authentic materials of a similar kind. For example, from newspaper articles, advertisements, promotional material, etc. *The focus in this syllabus is on skill development, fostering ideas and practice of language skills.*

**Course Objectives:** The course will help students to:

- Improve the language proficiency of students in English with an emphasis on Vocabulary, Grammar, Reading and Writing skills.
- Equip students to study academic subjects more effectively using the theoretical and Practical components of English syllabus.
- Develop study skills and communication skills in formal and informal situations.

**Course Outcomes:** Students will be able to:

- Use English Language effectively in spoken and written forms.
- Comprehend the given texts and respond appropriately.
- Communicate confidently in formal and informal contexts.

### SYLLABUS

#### Reading Skills

##### Objectives

1. To develop an awareness in students about the significance of silent reading and comprehension.
2. To develop students' ability to guess meanings of words from the context and grasp the overall message of the text, draw inferences, etc., by way of:
  - Skimming and Scanning the text
  - Intensive and Extensive Reading
  - Reading for Pleasure
  - Identifying the topic sentence
  - Inferring lexical and contextual meaning

  
VIGNAN  
Vignan Institute of Technology and Science  
(Vi) Deshmukhi, Pochampally (M),  
Yadadri Bhuvanagiri Dist. 508 284.

- Recognizing Coherence/Sequencing of Sentences

**NOTE:** The students will be trained in reading skills using the prescribed texts for detailed study. They will be tested in reading comprehension of different 'unseen' passages which may be taken from authentic texts, such as magazines/newspaper articles.

## Writing Skills

### Objectives

1. To develop an awareness in the students about writing as an exact and formal skill
2. To create an awareness in students about the components of different forms of writing, beginning with the lower order ones through;
  - Writing of sentences

## **CAPACITY ENHANCEMENT AND DEVELOPMENT SCHEME**

### **English Language Lab**

The Department has a modern Language Laboratory with state-of-the-art audio-visual equipment to aid in imparting language skills. The Laboratory is effectively utilized by students and faculty members for various self-enhancement and soft skill development activities. Laboratory proves beneficial for those students who are poor in use of English language. Students from rural areas who are generally weak in English can have sufficient training in the language lab. It aims at confidence-building among students for interactions and presentations in English. The basic purpose of the lab is to provide students a platform to enhance English language skills, communication skills and to practice soft skills.

#### **The main objectives of the Language Laboratory are:**

1. To equip the students with good communication skills.
2. To emphasize the need of English in the technical world.
3. To prepare them for interviews and future job environments.
4. To train the students in the art of conversation and discussion.

#### **Following English language and communication skills related laboratory sessions can be conducted here:**

1. Grammar of English Language: Practice and Exercises
2. Vocabulary Building Skills
3. Active Listening Skills
4. Introduction to Phonetic Sounds
5. Reading Comprehension

6. Business Letter Writing
7. Oral Presentations (Self Introduction, Extempore, Public Speech, Formal Presentation, Use of AV Aids, etc.)
8. Group Discussion (Unstructured & Structured )
9. Mastering Presentation Tools (Microsoft Word & Power Point)
10. Preparation of & Appearing for the Interview
11. Situational Conversations
12. Understanding Importance of Body Language

Each topic is exhaustively dealt with a number of examples, exhaustive articles and lectures. It is followed by testing tools. There is also a facility for students to answer a number of online tests made up of objective type tests. The English Language Lab is highly successful in imparting practical knowledge through hands on experience. Special training is given to the faculty to use the software for the benefit of the students.

After completion of this course, the student developed their listening skills and improve their pronunciation like to distinguish between marks of stress and recognize and pronounce in proper way. JAM sessions improve the individual and group activities of the students. The students have trained in reading skills which is used for knowing of new words and to attempt compressions in competitive exams.

## **About Software in the lab:**

In our language lab, we use **WALIDEN software** to learning English language communication skills as part of ELCS lab for 1<sup>st</sup> year B.Tech students and AECs lab for 3<sup>rd</sup> year B.Tech students under JNTUH curriculum. This software enables the students to practice all the language skills like listening, speaking, reading and writing skills. This language learning software can be used by 1500 users. Further, this revolutionary language lab is equipped with Audio recording facilities which help a great mode of evaluation and feedback. By this self-evaluation of the students' performance, they can identify the areas that need to be improved or changed.

## OUTCOMES OF THE LANGUAGE LAB

In today's corporate world the basic but most expensive skill required is to handle the English language effectively. It silently reveals the caliber of individual in their profession which in turn contributes to career growth. It is a fact that most students who do not find a placement after completion of their technical studies are very much dependent on their ability to express themselves and their knowledge efficiently.

The language laboratory plays an important role in the language learning process. It has become inevitable in today's context. Scientific advancements have produced a number of innovative products to assist the learning process. Innovative products such as digital multimedia control, wireless headsets and microphones, the interactive response pad, etc. are very useful for students learning languages for communication

Language labs provide practice in an entertaining and interactive way to acquire the four main language skills: listening, speaking, reading, and writing. Language labs allow students to reinforce material learned in class by putting them into practice through interactive activities.

The Computer Assisted Language Lab (CALL) uses the computer to teach language. The language course materials are already fed into the computer and are displayed according to the features available in the system. Nowadays, there are also laboratories with computers with a connection to the Internet. These are called Web Assisted Language Laboratories (WALL).

While using the language lab the students get the advantage of listening and learning the language without a time constraint. The practical sessions provide the chance for understanding the clear concept regarding right pronunciation, different accents and other aspects of language learning too. It helps one to learn pronunciation, accent, stress and all other aspects of the speech sounds of a language, so that they will be able to grasp the different accents uttered by the people from different walks of life. This listening skill automatically leads to Speaking.

Another advantage of the language lab is that it helps one to assess and improve the speech in English through the self help features. These features include model pronunciation of words, also the students can use it in record and playback mode that counterpart the user in self -assessment.

Since, so much of the data can't be dictated by the faculty, because it has time constraint, a lot of information / notes can be read by the students from the computer system and will be answered the questions which are followed by the information provided. This leads to the enrichment of Reading Skills as well as thought provoking & Innovative Writing skills.

Short-term and long-term modules have been designed for international examinations like IELTS, TOEFL, GRE, SAT, CAT and other competitive examinations. Paperless examinations have been conducted & evaluated through the language laboratory for the enhancement of all the four language skills.

Most of our students have got a lot of benefits by not only acquiring the language skills but also the confidence and the soft skills. Finally, we can conclude this by recording the importance of Language Learning Labs as by declaring that "We are Lifeless without Learning English Language" which is considered as a "Fish out of water".
