

About the English Language Lab

Modern language labs are known by many names, digital language lab, foreign language lab, English, language lab, multimedia language lab, language media center and multimedia learning center to name but a few. Let us go through the following text which explains more about language labs and to learn more.

Modern language labs in general offer the following

- Text, images, audio and video can easily be integrated to teaching and learning languages; language teachers can alter materials to fit their requirements and curriculum;
- Students can record their own voice and play back the recordings, interact with each other and the teacher, and store their results and recordings;
- Language teachers can intervene and control the learners' computers via the teacher's console, track of learners' work, etc.;
- Self-access for independent learning which includes access to resources outside class.

The purpose of a language lab is to **involve students to actively participate** in language learning exercises and **get more practice time** than otherwise possible in a traditional classroom environment. Main benefit of a language lab is that it increases the time each student can spend actively speaking and practicing during the class.

Common components and equipment in a modern language lab:

- Teacher has a computer with appropriate language lab software for conducting language exercises
- Teacher and students wear language learning headsets that block outside sounds and disturbances
- Students have a media player/recorder or student software for listening to audio and recording speech

Classroom with language lab (10 students): ~11 minutes*

Classroom with language lab (30 students): ~11 minutes*

With a language lab, all students in the class can speak simultaneously without distracting each other regardless of the class size. Without a language lab, in a class of more than 10 students, each student gets less than one minute of speaking practice.

Speaking for only less than 1 minute per class cannot possible develop a student's language skills like spontaneous speaking, real-life communication and pronunciation as efficiently as we would like. Language labs are solving this problem in language education.

What are cloud-based and online language lab solutions?

The most advanced language lab solutions today are fully software-based and can be used anywhere and anytime via a normal web-browser. The advantage of these cloud-based online language labs is that they don't need any installation to the institution's computers. They are very easy to set up and maintain, saving institution's budget in the process.

With cloud based, online language lab software, teachers can teach and students can learn any language, on any device. They can be used on virtually any device, on a tablet, a PC, a Mac or a Chrome book. Therefore an online language lab is the perfect solution for a language class or language department who has "bring your own device" policy.

***Note:** Actual speaking time per student can be considerably higher depending on what type of exercises teacher conducts. In many cases it can be even 40 minutes per 60 minute class.

**EN107HS/EN207HS: ENGLISH LANGUAGE
AND COMMUNICATION SKILLS LAB**

B.Tech. I Year I Sem.

L	T	P	C
0	0	2	1

The **Language Lab** focuses on the production and practice of sounds of language and familiarizes the students with the use of English in everyday situations both in formal and informal contexts.

Course Objectives:

- ☞ To facilitate computer-assisted multi-media instruction enabling individualized and independent language learning
- ☞ To sensitize students to the nuances of English speech sounds, word accent, intonation and rhythm
- ☞ To bring about a consistent accent and intelligibility in students' pronunciation of English by providing an opportunity for practice in speaking
- ☞ To improve the fluency of students in spoken English and neutralize their mother tongue influence
- ☞ To train students to use language appropriately for public speaking and interviews

Learning Outcomes: Students will be able to attain

- ☞ Better understanding of nuances of English language through audio- visual experience and group activities
- ☞ Neutralization of accent for intelligibility
- ☞ Speaking skills with clarity and confidence which in turn enhances their employability skills

Syllabus

English Language and Communication Skills Lab (ELCS) shall have two parts:

- a. Computer Assisted Language Learning (CALL) Lab**
- b. Interactive Communication Skills (ICS) Lab**

Listening Skills

Objectives

1. To enable students develop their listening skills so that they may appreciate its role in the LSRW skills approach to language and improve their pronunciation
2. To equip students with necessary training in listening so that they can comprehend the speech of people of different backgrounds and regions

Students should be given practice in listening to the sounds of the language, to be able to recognize them and find the distinction between different sounds, to be able to mark stress and recognize and use the right intonation in sentences.

PRINCIPAL
 Jagan Institute of Technology and Science
 (VI) Deshmukhi, Pochampally (MDI),
 Yadadri Bhuvanagiri Dist.-508 284.

- Listening for general content
- Listening to fill up information
- Intensive listening
- Listening for specific information

Speaking Skills

Objectives

1. To involve students in speaking activities in various contexts
2. To enable students express themselves fluently and appropriately in social and professional contexts
 - Oral practice: Just A Minute (JAM) Sessions
 - Describing objects/situations/people
 - Role play – Individual/Group activities

- **The following course content is prescribed for the English Language and Communication Skills Lab based on Unit-6 of AICTE Model Curriculum 2018 for B.Tech First English. As the syllabus is very limited, it is required to prepare teaching/learning materials by the teachers collectively in the form of handouts based on the needs of the students in their respective colleges for effective teaching/learning and timesaving in the Lab)**

Exercise – I

CALL Lab:

Understand: Listening Skill- Its importance – Purpose- Process- Types- Barriers of Listening.

Practice: Introduction to Phonetics – Speech Sounds – Vowels and Consonants.

ICS Lab:

Understand: Communication at Work Place- Spoken vs. Written language.

Practice: Ice-Breaking Activity and JAM Session- Situational Dialogues – Greetings – Taking Leave – Introducing Oneself and Others.

Exercise – II

CALL Lab:

Understand: Structure of Syllables – Word Stress and Rhythm– Weak Forms and Strong Forms in Context.

Practice: Basic Rules of Word Accent - Stress Shift - Weak Forms and Strong Forms in Context.

ICS Lab:

Understand: Features of Good Conversation – Non-verbal Communication.

Practice: Situational Dialogues – Role-Play- Expressions in Various Situations –Making Requests and Seeking Permissions - Telephone Etiquette.

Exercise - III

CALL Lab:

Understand: Intonation-Errors in Pronunciation-the Influence of Mother Tongue (MTI).

PRINCIPAL
Vignan Institute of Technology and Science
(Vi) Deshmukhi, Pochampally (Mdl),
Yadadri Bhuvanagiri Dist.-508 284.

Practice: Common Indian Variants in Pronunciation – Differences in British and American Pronunciation.

ICS Lab:

Understand: How to make Formal Presentations.

Practice: Formal Presentations.

Exercise – IV**CALL Lab:**

Understand: Listening for General Details.

Practice: Listening Comprehension Tests.

ICS Lab:

Understand: Public Speaking – Exposure to Structured Talks.

Practice: Making a Short Speech – Extempore.

Exercise – V**CALL Lab:**

Understand: Listening for Specific Details.

Practice: Listening Comprehension Tests.

ICS Lab:

Understand: Interview Skills.

Practice: Mock Interviews.

Minimum Requirement of infrastructural facilities for ELCS Lab:**1. Computer Assisted Language Learning (CALL) Lab:**

The Computer Assisted Language Learning Lab has to accommodate 40 students with 40 systems, with one Master Console, LAN facility and English language learning software for self- study by students.

System Requirement (Hardware component):

Computer network with LAN facility (minimum 40 systems with multimedia) with the following specifications:

- i) Computers with Suitable Configuration
- ii) High Fidelity Headphones

2. Interactive Communication Skills (ICS) Lab:

The Interactive Communication Skills Lab: A Spacious room with movable chairs and audio-visual aids with a Public-Address System, a LCD and a projector etc.

ADVANCED COMMUNICATION SKILLS LAB

III Year B.Tech. CSE I-Sem

L T P C
3 0 0 3

1. INTRODUCTION:

The introduction of the Advanced Communication Skills Lab is considered essential at 3rd year level. At this stage, the students need to prepare themselves for their careers which may require them to listen to, read, speak and write in English both for their professional and interpersonal communication in the globalized context.

The proposed course should be a laboratory course to enable students to use 'good' English and perform the following:

- Gathering ideas and information to organize ideas relevantly and coherently.
- Engaging in debates.
- Participating in group discussions.
- Facing interviews.
- Writing project/research reports/technical reports.
- Making oral presentations.
- Writing formal letters.
- Transferring information from non-verbal to verbal texts and vice-versa.
- Taking part in social and professional communication.

2. OBJECTIVES:

This Lab focuses on using multi-media instruction for language development to meet the following targets:

1. To improve the students' fluency in English, through a well-developed vocabulary and enable them to listen to English spoken at normal conversational speed by educated English speakers and respond appropriately in different socio-cultural and professional contexts.
2. Further, they would be required to communicate their ideas relevantly and coherently in writing.
3. To prepare all the students for their placements.

3. SYLLABUS:

The following course content to conduct the activities is prescribed for the Advanced English Communication Skills (AECS) Lab:

1. **Activities on Fundamentals of Inter-personal Communication and Building Vocabulary** - Starting a conversation – responding appropriately and relevantly – using the right body language – Role Play in different situations & Discourse Skills- using visuals - Synonyms and antonyms, word roots, one-word substitutes, prefixes and suffixes, study of word origin, business vocabulary, analogy, idioms and phrases, collocations & usage of vocabulary.
2. **Activities on Reading Comprehension** –General Vs Local comprehension, reading for facts, guessing meanings from context, scanning, skimming, inferring meaning, critical reading & effective googling.
3. **Activities on Writing Skills** – Structure and presentation of different types of writing – *letter writing/Resume writing/ e-correspondence/Technical report writing/* – planning for writing – improving one's writing.
4. **Activities on Presentation Skills** – Oral presentations (individual and group) through JAM sessions/seminars/PPTs and written presentations through posters/projects/reports/ e-mails/assignments etc.
5. **Activities on Group Discussion and Interview Skills** – Dynamics of group discussion, intervention, summarizing, modulation of voice, body language, relevance, fluency and organization of ideas and rubrics for evaluation- Concept and process, pre-interview planning, opening strategies, answering strategies, interview through tele-conference & video-conference and Mock Interviews.

4. MINIMUM REQUIREMENT:

The Advanced English Communication Skills (AECS) Laboratory shall have the following infrastructural facilities to accommodate at least 35 students in the lab:

- Spacious room with appropriate acoustics.
- Round Tables with movable chairs
- Audio-visual aids
- LCD Projector
- Public Address system
- P – IV Processor, Hard Disk – 80 GB, RAM–512 MB Minimum, Speed – 2.8 GHZ
- T. V, a digital stereo & Camcorder
- Headphones of High quality

5. SUGGESTED SOFTWARE:

The software consisting of the prescribed topics elaborated above should be procured and used.

- Oxford Advanced Learner's Compass, 7th Edition
- DELTA's key to the Next Generation TOEFL Test: Advanced Skill Practice.
- Lingua TOEFL CBT Insider, by Dream tech
- TOEFL & GRE (KAPLAN, AARCO & BARRONS, USA, Cracking GRE by CLIFFS)

Outcomes of English Language Laboratories

What is an English Language Lab?

Language Lab is an audio-visual installation used to teach a foreign language with modern teaching methods. The installation involves multimedia computers for teachers and students, a digital teaching system, headphones with microphone and elaborate language software. English Language Lab, as the name suggests, is a digitally-equipped installation for teaching English.

An English Language Lab offers a result-oriented approach to improve the English of students with a number of interactive exercises. Students can enhance their proficiency in English by sharing their progress, engage in group discussions, perform the audio-visual exercises and monitor their growth. The English Language software is based on LSRW, which are the four basic principles of mastering a foreign language. The entire course is designed as per the CEFR standards to ensure that Indian students learn English as per the International norms.

Despite being a technologically-equipped tool, an English Language Lab doesn't rule out the role of a teacher. In fact, it enhances a teacher's participation in a student's growth. With the help of the Language Lab software, the teacher can monitor each student's growth pattern and assign them tests accordingly. This can also help them pay more attention to weak or shy students without disrupting the course of the entire classroom.

Owing to its number of features and result-oriented approach, the Indian government has of great support to the English Language program across the country for the urban as well as rural educational institutes. Many schools and colleges are conducting English Language lessons in the lab and have noticed positive results in students. This model has proven to be very beneficial for rural schools since the students don't get enough opportunities to explore a foreign language.

Advantages of English Language Lab

With the advanced hardware and interactive English Language software, a Language Lab integrates the role of a teacher and software in teaching a foreign language. It divides the lessons into two parts; Instructor-Led Training and Computer-Based Training. In the ILT (Instructor-Led Training) the teacher can explain language lessons to the students with the help of the preset audiovisual methods. On the other hand, the CBT (Computer-Based Training) relies strictly on the audiobooks and the software-based exercises. With this, both traditional and modern educational methods can co-exist

There are several other advantages of an English Language Lab, some of which are mentioned below.

Audio-Visual Based Teaching

Each lesson of the English Language Lab is in an audio-visual format, which is much more engaging and interactive than the traditional pen and paper course modules. The step-by-step audio guidance from the computer or teacher gives students clarity on how to pronounce the English words

Reduces Mother Tongue Influence

Mother Tongue Influence or Indianism is a common phenomenon to be seen in Indian students. Due to different mother tongues, some people pronounce English words in a slightly different manner. This is known as Indianism. However, in the case of the English Language Lab, the pronunciation of each word is taught with a practical approach, thus removing the mother tongue effects.

Longer Attention Span

With the interactive multimedia content, the students are able to pay attention to the language lessons for long. Each student is assigned a separate system and is told to interactive with the audio-visual exercise. When the students are engaged with the language exercises, they tend to hold the information for longer.

Elimination of Self-Consciousness

The teachers can monitor the growth of each student individually and regulate their pace accordingly. This method can help shy and hesitant students to be open about their problems with the teachers. The teacher and students can communicate with each other privately without letting the rest of the students know. This feature helps eliminate self-consciousness in students.

Self-Evaluation

English Language Lab gives the students the freedom to access themselves and their English speaking skills. With the help of a microphone and headphones, they can record their own voice while speaking English and listen to it later to see the results. They can also share their recordings with the teachers and other students to gauge their speaking skills.

Self-Paced Lessons

English Language lessons in a laboratory setup are self-paced. This means the students can progress with the curriculum as per their convenience. This eliminates the chances of a student being left out due to peer pressure. On the other hand, teachers can assess an individual's growth and decide a further plans of action.
