**Dr. L. Rathaiah**  
Chairman, Vignan Group

### THE LEGEND OF VIGNAN

Over the past four decades, there has been a spiraling change in the field of education. The best kept itself abreast of the change and further inspired change. We, at Vignan are privileged to be recognized as the pioneers of educational revolution from the last four decades and have provided the world with the best talent. When we started a residential junior college in Vadlamudi, Guntur, blossomed into a group of institutions over the years. Inspiring story, isn't it? Indeed our students take great pride to be a part and parcel of this wonderful evolution. And so, Vignan has established Engineering, Pharmacy, and Management Colleges in Guntur, Hyderabad and Vishakhapatnam and have built a strong reputation. With an intake of a robust 20,000 students and faculty at staggering 2,000 members, it has been a journey of achievement as we at Vignan, take honor towards the contribution of society.

### OTHERS SAW THE PROBLEM. HE FOUND THE SOLUTION

The difference between the dreamers and visionaries is that a dreamer just dreams and does nothing to realize it, while a visionary creates his own path to realize his ideas. That streak of originality is the distinct quality which makes them a breed apart from the mere mortals.

Dr. L. Rathaiah, the Chairman of Vignan Group of Institutions, is destined to be different. Or should we say, he chose to be different

### VISION

"To evolve into a center of excellence in Science & Technology through creative and innovative practices in teaching-learning, promoting academic achievement & research excellence to produce internationally accepted competitive and world class professionals who are psychologically strong and emotionally balanced imbued with social consciousness and ethical values."

### MISSION

"To provide high quality academic programmes, training activities, research facilities and opportunities supported by continuous industry – institute interaction aimed at employability, entrepreneurship, leadership and research aptitude among students and contribute to the economic and technological development of the region, state and nation."

**Sri. B. Shravan**
