Student feedback mechanism on Institutional Governance/faculty Performance

Effective student feedback Mechanism is in place, based on which faculty performance and effectiveness of Governance is assessed and improvements are made.

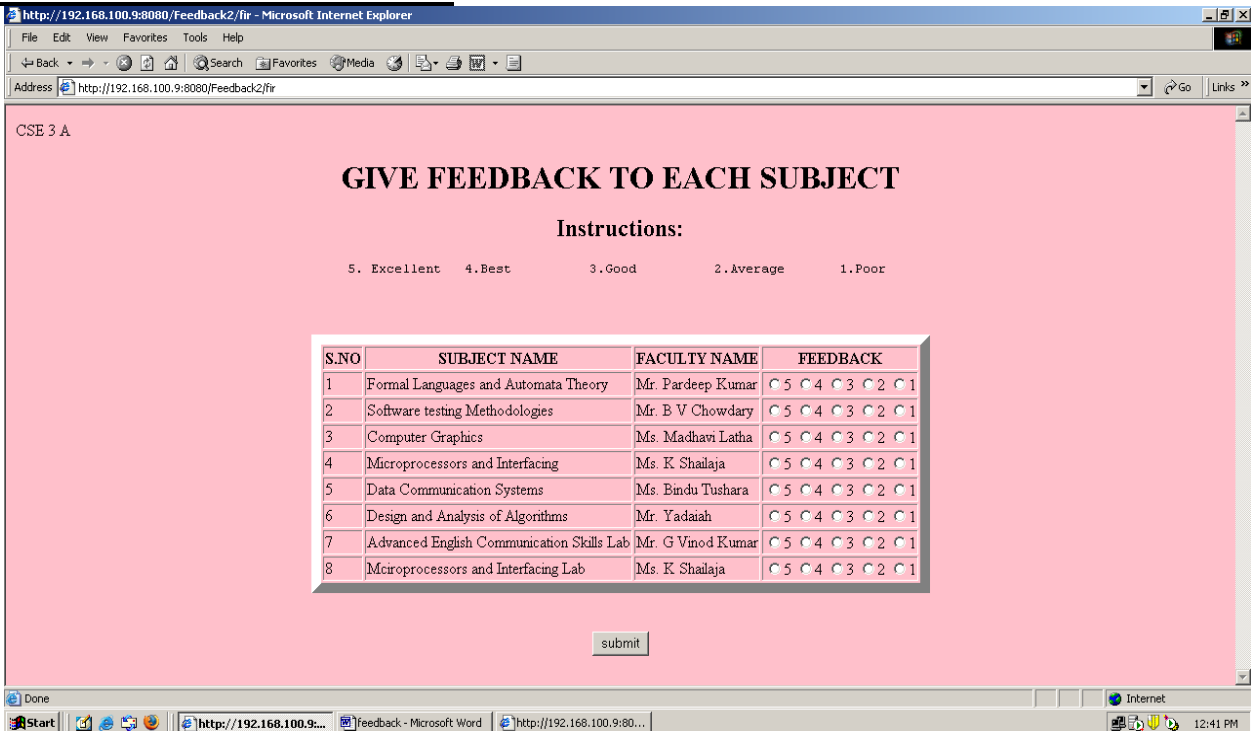

- In the Academic year 2009-2010(odd sem.), we followed **Online Student Feedback System**...Feedback was taken twice in a semester
  - i) one before first mid examination for mid course correction
  - ii) One before second mid examination.
- The previous Offline System was automated and a new **online system** was developed based on the same requirements. First time the students have given Feedback directly on the computer.
- A separate server system was configured to maintain Feedback System.
- A separate LAN is being setup with 65 systems to run the Feedback system.
- An Instructor will be available in the Lab to sort out problems if any, and he makes sure that any discrepancies won't happen.
- Every student is given with an individual account where he can login and give feedback to currently registered subjects. Upon Login the student will get the Subjects and Faculty details along with Feedback options.
- The student may give Feedback on a scale of 1-5 where 1 is minimum and 5 are maximum. Where
  - 5 stands for Excellent
  - 4 stands for Best
  - 3 stands for Good
  - 2 stands for Average
  - 1 stands for Poor.

- The Student Feedback is automatically calculated on the fly and cumulative result is updated in the database instantly.
- The Administrator can login with privileged account in the presence of Principal and can take prints of Feedback reports.
- Here we present sample screen shots of our Feedback application
